FREE RAILWAY RIDES The Pass Question Unnecessarily Worrying Many People.

No Radical Changes Likely to Be Made in the Matter of Free Transportation—Mr. Ingalls' Views.

An exchange revives the rumor which appears annually about the last of November, as regards the curtailing of passes.

An unpleasant surprise is in store for those persons who have obtained free transportation from railroads so long that they consider they have a divine right to it.

There is no cause for persons who are entitled to such favors to worry. President Ingalls, of the Big Four, takes the right ground in the matter when he says no railroad official ever issued a pass, unless it was for some person deserving charity, unless he thought the road would be benefited by granting such favor.

The list of annual passholders will be the first to be ridged. The only names to be left are the exchange passes with other roads and the directors and prominent security holders.

Some of the railway employees' associations are, if reports are true, in fair way to leave the Big Four. The National Yarnmasters' Association now has less than 100 members.

An Average Cost of \$50,000 to Keep Up Appearances in New York.

What does it cost to live in New York? To support such an establishment as a married man in New York, it costs \$50,000 a year.

When a reporter asked this question recently of several prominent New Yorkers, whose means warranted their living in any style they chose, he found that the estimate of the cost of living was widely, but that in the details there were lacking, every one of them, in what the majority of people would call the most important items.

There is a question as to whether the cost of living in New York is increasing or decreasing. The answer is that it is increasing.

The Cincinnati, Hamilton & Dayton, the Pennsylvania and the Big Four will probably join forces and erect interlocking and crossing signals at the Chicago and Rock Island.

The Flint & Pere Marquette and the Lake Shore companies have settled their contentions arising from the tunnel collision two years ago.

W. P. Adams, president of the Belt road and stockyards, is much encouraged over the increase in business at the yards last week.

One of the strong points with E. O. McCormick, president of the Hamilton & Dayton, is his policy of advertising in the Big Four.

The Jacksonville Southeastern line, which has been thrown up both hands and says it cannot assist without the interchange of business from other connections, has assured other roads that they will maintain rates and agreements.

GREAT POETS.

POWERFUL WORDS AND NOBLE THOUGHTS.

HOW CLOSELY ARE THEY RELATED TO MANY DAILY LIVES.

WHAT A VERY PROMINENT LADY THINKS ABOUT IT.

Henry W. Longfellow has said in one of his most popular poems that "All things come round to him who will wait."

How true it certainly is that if one has but the patience to wait and struggle for that which one so much desires, the prize will surely be gained.

At least one person appreciates the full significance of the great man's words. Miss S. Cohen, of 524 South 5th st., Camden, N. J., has for months been waiting, longing and striving to regain that health without which life is at best but a dreary existence.

She has been constantly treating with different remedies and physicians, but never once lost courage for she had made up her mind that there was a remedy which would cure her and was determined to find it.
